## 1. DESCRIPTION

The advertising playing cards are printed on specialized plasticized, three ply, non-translucent cardboard, with double-sided UV varnish cover. The deck is standard bridge size (57x89 mm) and has 55 cards, including 2 Jokers and a Bridge table.

The cards are packaged in two ways – either in a 59 x 91 x 18 mm cardboard advertising box, or 20 decks per carton. Both the decks and the advertising boxes are wrapped in transparent foil.

DMT offers developing individual advertising designs to be printed on the backs and boxes.

## 2. PRICES (in leva (BGN) without VAT)

CARDS
